NUMBER 24

Raymond Bascom Dies After Lengthy Illness

Raymond Bascom, who would have been 42 on October 22nd, passed away at his home in Eastend, Sask., after a long illness during which time he had suffered greatly, but had been patient and hopeful in it all, and right up to the end was still able to carry on his work. For the past two weeks he had been so weak that he was unable to get up or wait on himself, and while it is a great shock and a severe trial to his wife and children, his father and other relatives, it must be a great relief to Raymond himself. The body was brought from Eastend to Lethbridge Monday night and is at Christensen Bros. Funeral parlors. Mrs. Bascom and the children arrived in Raymond Tuesday afternoon.

Born in Utah, but coming to Canada with the family in his early years, Raymond, or "Tommy" as he was familiarly known, grew up in Raymond where he received his education. One of a large family he went to work at an early age, and always showed a keen interest in horses and livestock. He worked for many years for the Knight Sugar Co., mostly in the saddle and was always reliable and trustworthy. He had a lease on the ridge for a number of years where he farmed and raised stock, and about three years ago accepted a very attractive offer to manage a large ranch in Saskatchewan, where he was at the time of his death. With his brother Melvin, he had leased a large ranch in Saskatchewan and they were getting a nice start of stock on their own account.

Tommy was an ardent Stampede man and for years was a top performer at shows in Southern Alberta. Later he started working as pickup man and really made a name for himself in this work. He was always in demand at all the surrounding stampedes and also at Calgary each year, and was rated as one of the top men in this line. He was present this summer at our local show and while he enjoyed it from the tops of the chutes, had a longing to be in the sweat and dust of the arena helping pick the boys off the backs of the squealing, kicking, fighting

NEWS NOTES

Ken Vold has painted the Mr. and Mrs. Karl Dahl home this week.

Mrs. W. S. Rouse who has spent the past year in California is here for a few weeks looking after her business interests here.

Miss Katherine Paxman has rented a room in the J. E. Fisher home for the winter months to avoid travelling to and from the farm during the bad weather.

Grant Hall of the Royal Canadian Navy, and now stationed at Halifax, is home on leave, arriving the end of the week. Grant looks fine and enjoys his work in the Navy.

Mr. and Mrs. Bruce Heggie who have been in Moose Jaw, Sask., for the past three months or so, arrived home last week-end for a visit with relatives and friends, and Reva expects to remain here, at least until after Christmas.

The production of seeds of vegetables and field roots in Canada has increased at least five times that of pre-war years. A program of scientific research essential to developing satisfactory control methods of many seed-borne diseases is now in progress.

broncos.

We would like to add our personal word of appreciation for our friendship with Tommy and extend our deepest sympathy to the sorrowing widow and four children in their sorrow. To know Raymond Bascom was to love and respect him. He was a good husband and father, and in the poet's words, "an honest man is the noblest work of God." Raymond measured up remarkably well. We feel a deep loss in his passing and will miss him greatly.

Funeral services over the remains of John Raymond Bascom will be held in the 2nd Ward Church on Sunday afternoon at 2:30 p.m.

CBC Singer

Golden-haired and pretty Pat Bailey is singing for civilians up some time ago with the and soldiers alike in her latest trouping comrades of the enter weekly programme of modern front. She has sung hit songs. Her next broadcast will be of romantic melodies will be heard over the CBC national network on Saturday October Services."

Our Fifth Victory Loan

On October 18th, Canada's Fifth Victory Loan opens with an objective of One Billion, Two Hundred Million Dollars. (We have written this because we might get mixed up in our ciphers if we use figures.) This is a sum so large that most of us cannot visualize it. What will be Canada's attitude to this new loan? How are you going to respond when salesmen and saleswomen approach you for your share in this new loan? Let's look at the facts a little and see what we should do.

There is a growing feeling in the minds of some that Victory is now assured and there is no need for a continuance of the plugging for production which has characterized our war work in the Dominion for the past two or three years. Leaders at home and abroad are warning against this attitude and pleading with Canadians to not only maintain, but to increase our present production in all fields of the war effort. While ultimate victory may be ours, the day of victory is far off and the road going to be steeped in blood and strewn with the dead and wounded of both Allied and Axis nations. Our leaders plead with us all to maintain and increase our effort so that the time between then and now may be as short as possible and the human misery and suffering be mitigated as much as possible. Victory Loans will have to be made successful if this is done.

If you feel inclined to disregard the appeal for purchase of Victory Bonds think of the barbarous butchery, murder and needless slayings that have characterized the invasion of Russia by the Nazis and the overrunning of portions of China by the Japs. There has been no mercy, no humaneness, no kindness, in fact, there has not even been the slightest respect for these oppressed peoples, animals in many cases being treated much better than the victims of these pyro-manias who call themselves a race of supermen. We think such tactics indicate a race of superior devils. Think of the rejoicing of the freed peoples of North Africa, Sicily, and Italy when the flags of the Allies were hoisted over their towns and cities and the Swastika of Nazism and all its terrors driven out. As Christian and lover of democracy, are you not interested in seeing that more millions of peoples in the occupied nations are given this same freedom and this same cause for happiness. We cannot excuse ourselves because of a lack of cash. Everyone is busy, and everyone employed at good wages. We can hardly furnish the excuse of needing the money for other things, because of the shortages of most goods we can supply our needs and still buy Victory Bonds. If our quota does not go over the top, and that quickly, it will be because we either lack faith in the judgment of our leaders and the need for the finance, we are willing to let others sacrifice to pay the price for victory while we clap our hands and do nothing, or else we are unwilling to aid the Axis in lengthening the period of suffering, torture and famine to the occupied nations of the world, and indirectly being a party to the deferring action against success that is being fought by the Nazis.

Fellow Canadian, it's up to you. Remember this, it isn't the \$500 and \$1,000 purchases that put these loans over. It's the Millions of small buyers like you and I of \$50 and \$100 bonds that spell success to the Drive and warm the hearts of committeemen across Canada. Back up your local committee, your Provincial committee and your Dominion Committee by buying quickly the bonds of the Fifth Victory Loan.

NEWS NOTES

Roy Overn of Magrath was a Raymond visitor Monday of this week.

Due to misunderstandings between the Club and its caterer, no Rotary luncheon was held last Monday.

Today, October 1st, the new dairy bonuses go into effect, making milk at the local Cheese Factory worth 54c per lb. butterfat content.

Hanover, Germany, bombed Wednesday night of last week, is reported as the greatest raid in history. For 33 minutes bombs rained from the skies at the rate of approximately 70 a minute, 2,338 tons of bombs were loosed in the raid.

Mr. and Mrs. Dave Richardson have received word recently from their three boys overseas. Two of them are still in England, and one of them was in Sicily and likely now in Italy with the Canadian division. Like many of the other Canadian boys Calvin has a love affair on and is expecting to get married soon to an English girl over there.

Mrs. D. H. Kinsey is spending a few months here now after spending last winter and most of the summer with members of the family in the States. She is enjoying her visit here very much.

Karl Gehmlich, after two weeks in the Hospital, was brought home in a cast Monday evening and is convalescing slowly. He hopes to be able to walk a little in a week or so. We extend our wishes to Karl for a speedy and complete recovery.

Two pant suits will be back on the market this fall according to official announcements. The feared shortage of Australian wool which caused the ban of two pant suits and cuffs did not materialize and we Canadians can again have our cuffs and two pant suits.

With the beet harvest on and threshing being finished up, everyone is busy and going from daylight till dark. As the beet harvest speeds up there is a steady stream of trucks and tractors with the odd team of horses at the beet scales to be unloaded.

New Control Of Employment In High Priority Industries

ALBERTA OLD AGE PENSIONERS GET \$30 A MONTH

Edmonton, Sept. 27 — Hon. Solon E. Low, provincial treasurer, announced Saturday that Alberta old age pensioners will receive \$30 a month under arrangements being completed between the Alberta and Dominion governments. It is expected the increased pensions will be retroactive to Sept. 1 and will be included in the October payments.

Mr. Low said the government has authorized the signing of an agreement with the Dominion increasing the pension from \$240 to \$300, which would mean \$25 a month to every pensioner whose income does not exceed \$365 a year. In addition, Alberta already has been paying a \$5 a month supplementary pension, and this will continue, making the pension \$30 a month.

The agreement has been signed and forwarded to Ottawa for completion by the minister of finance.

The order provides that the increase will date from Sept. 1 and the Dominion government tentatively has agreed to this date.—Lethbridge Herald.

CARNIVAL AND JAMBOREE

The annual Lethbridge Carnival and Jamboree, the south has ever witnessed on Saturday night, October 9th. The advertising manager of the show was in Raymond Tuesday and besides the information contained on the window bills posted about town, he informed us that there would be a mammoth parade in Lethbridge at 2 p.m. Saturday afternoon with 1,000 personnel of the Air Force taking part. This will be followed by the opening of the Jamboree at 6 p.m. at the School where a great Air Show will be put on, and then just at dark a wonderful firework display will be put on for the entertainment of the crowd.

The Dance and Carnival will start at 9 p.m. and there will be fun for all. Games of all kinds, contests of various kinds, with \$3,000.00 in prizes will be interspersed with dancing, and some time during the evening a mammoth birthday cake, 8 feet wide and 4 feet high will be cut and passed around. Tickets are 25c each and everyone is invited to be present and take part in the fun.

NEWS NOTES

Mr. and Mrs. I. B. Roberts, Pres Melvin T. King and Bishop J. O. Hicken left by car to attend the semi-annual Conference of the L.D.S. Church in Salt Lake City. They left Monday.

Roi Stone is still unable to stand regular store work. The burn on his foot and ankle received several weeks ago seems to be very slow in completely healing.

Grant Paxman, son of Mr. and Mrs. E. L. Paxman is leaving the end of next week to attend the School of Agriculture at Olds, Alta. Grant has enough High School credits that he will take the one year course, which in the case of graduated High School students enables them to cover the work in that time.

Honorable Humphrey Mitchell, Minister of Labour, announces further control of employment in high priority industries.

The Government has, by Order in Council, provided that employers in 'A' or 'B' labour priorities may not release male employees without the written permission of a Selective Service Officer. Simarily male employees in the same industries may not give notice of separation to their employers without first having secured the written permission of a Selective Service Officer.

'A' and 'B' are the two high est priorities and include all war industries and essential civilian services, including the delivery of fuel in cities, food processing and meat packing plants and many other services.

Local Employment and selective Offices will notify employers that they are in either 'A' or 'B' category, and immediately such notice is received by the employer, he will be required to post it for the information of the employees; the rule will then be effective in the particular plant.

For the present, female employees are not to be included in this further control.

Instructions being issued to National Selective Offices will require the employer to grant permission. Instructions will also be issued to National Selective Offices that would result from a refusal to grant permission.

"Many thousands of firms", the Minister of Labour explained, "fall in categories 'A' or 'B'. While every effort will be made to avoid imposing hardship on any individuals, the need of preventing avoidable labour turnover in industries highly important to the war effort is greater than ever, and the new rules are expected to give substantial assistance in that direction."

Hon. Mr. Mitchell further pointed out that the principles involved in the new regulation, before being approved by the Governor in Council, were carefully considered by the National Selective Service Advisory Board, and were unanimously approved by that Board. The Board has representation from organized labour, employers, farmers, returned soldiers, and Government departments.

The Minister concluded by saying: "The Order goes into effect September 29, 1943, and there will be no doubt in most plants as to whether the employment comes under the Order or not; however, in cases of doubt employers will be furnished the information by the local Employment and Selective Service office."

The standard penalties, contained in National Selective Service Civilian Regulations, will apply in the case of failure to comply with the new regulation regarding separation from employment in categories 'A' and 'B'.

The new control on employment in 'A' and 'B' priorities does not constitute any interference with men joining the Armed Forces voluntarily, nor with men required to report for medical examination or military training under Mobilization Regulations.

Alex Smith returned to work at the Factory Tuesday morning after being away for nearly a week due to displacing one of the vertebrae of his back.

BETTER STOCK FOR BIGGER PROFITS

Today, the added bonuses come into effect on milk, cheese and most dairy products. If you are in the dairy business are your cows 'producers' or 'boarders' If you are not milking cows now, isn't there a real temptation in a price of 54c. per lb. butterfat content for your milk? Other things being equal, a few good cows will yield just about the best turnover in the shortest time of anything you can go into, and you will make a real contribution to the war effort.

Our heading has a real thou-

ght behind it. Many people strip away on five or six poor cows, and because production is light, butterfat test low, and feed prices high, they get discouraged and say there is no money in dairying. Another person keeps good cows, that eat no more than poor cows, gets twice the quantity with a butterfat content considerably higher, gets real satisfaction from taking care of good cows, and he smiles all over when he gets his cheque and says there is nothing to beat dairying.

There have been some very fine additions to the quality of the dairy cows in the district during the past year, and recently some came from the C.P.R. herd at Strathmore, one cow costing a local dairyman nearly \$400.00. We imagine many say no cow is worth that price. Take a high producing cow, one that will give 65 or 70 pounds of milk a day, with a fat content of let us say 3.8 and figure this out at a sale price of 54c. per lb. and see how long it would take for such a cow to pay for herself. And here is a very important point, this cow will do all this on as little feed as a 20 pound, 3 per cent cow

Pullets are coming into production now and the deliveries of eggs at the Cheese Factory are increasing steadily and the small pullet eggs showing a big majority right now.

Mr. and Mrs. Wm. Greep have received a wire from their son Jim in England advising them of his marriage on September 18th to Miss Joyce Williams. We extend our best wishes and congratulations to Jim and his new bride.

will do. Figure out the difference for yourself. Really good cows will bring more revenue than twice the number of poor cows and on top of the feed. The motto is "While beef is a good price sell the poor cows for beef, buy good ones for the dairy, and really put in to the money while prices are good. Well bred dairy stock goes back a good many generations and you have something you can really rely on, which is not the case with even very good grade stock. You can hit the jackpot if you go about it the right way.

The salvage of fire-killed timber before it becomes riddled by wood borers has been greatly aided by information supplied by the Dominion Department of Agriculture whose officers have inspected burnt-out areas in Manitoba, Saskatchewan, Ontario, and Quebec, and made valuable recommendations.

PAMPHLET RE INCREASING DAIRY PRODUCTION

The production of milk and dairy production in Alberta during recent weeks has been somewhat disappointing, and while the production of creamery butter will exceed that of any previous year, it is quite evident that the objectives set for 1943 will not be reached in Alberta for either creamery butter or factory cheese.

With the hope of keeping milk production at a maximum, the Department has published an illustrated leaflet outlining seven important points which should assist dairy producers in increasing quantity of milk and butterfat for market. This leaflet will be widely distributed by dairy factories throughout Alberta and through the Extension Branch, Department of Agriculture, Edmonton. Anyone interested in securing a copy of this publication should direct his enquiry to their regular dairy factory or to the Department. LET'S BE DOING ... while we're planning

• Everybody is thinking a great deal about the future these days... planning... getting ready for the period to follow the war. All realize that the war may bring surprises—but the tide is turning in our favour.

Chemists and engineers, producing things needed for war, are making discoveries which will mean comforts and conveniences for all of us when peace comes. New methods of making things, new processes, new materials, now being filed away in blue prints and formulae, will bring us many new and useful articles. Many things not available now will be replaced by better models and designs.

You may have plans for a new home, remodelling your present home, new home furnishings. If you are a farmer you will need new and improved equipment and machinery.

Now, while you are thinking and planning, you can do something to insure that your plans can be carried out. Victory Bonds—which can be bought on convenient instalments, with money as you get it—provide a means of keeping your savings intact, earmarked for things you want.

Most Canadians are saving money. Most of us are buying Victory Bonds and when we buy Victory Bonds we are helping to win the war. We are helping to speed the day of victory and we are doing something that will benefit ourselves.

WHAT IS A VICTORY BOND?

A VICTORY BOND is the promise of the Dominion of Canada to repay in cash the face value of the Bond on the date of maturity with half-yearly interest until that time. A Victory Bond is the safest investment in Canada backed by the entire resources of the Dominion. Canada has been issuing bonds for 75 years, and has never failed to pay every dollar of principal and interest when due. A Victory Bond is an asset readily marketable at any time.

VICTORY BONDS

When it comes to saving coal — Patriotism and common sense go hand in hand

FARSIGHTED householders are seeing the urgent need of preparing their homes now against this winter's coal shortage. They are acting now!

HEATING SYSTEMS MUST BE EFFICIENT: HOMES SHOULD BE ADEQUATELY INSULATED.

Here are some jobs you should be doing NOW!

- 1 Have your entire heating system inspected. Order necessary repairs.
- 2 Have your furnace thoroughly cleaned by a competent man. Insulate furnace and pipes where necessary.
- 3 Be sure that you have sufficient storm windows and that all windows and doors fit tightly. Have cracks in walls repaired. Weatherstrip wherever it is necessary. Consider seriously the insulation of ceiling and walls.

Many homes waste as much as 60% of their fuel through inefficient heating equipment, inadequate insulation and other heat losses. Winter is just around the corner. Prepare NOW!

Save one ton in five

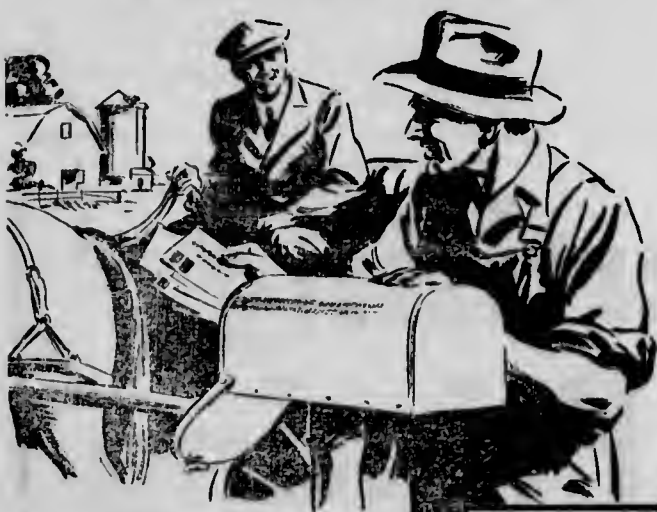

THE DEPARTMENT OF MUNITIONS AND SUPPLY
HON. C. D. HOWE, Minister

C. E. Alfred left by bus from attend Conference in Salt Lake Stirling Thursday afternoon to City.

HOLD HIGH THE TORCH OF FREEDOM

CANADIAN FARMERS

Save BY MAIL

Determined, systematic saving by every citizen is part of the national price of VICTORY.

Patriotism now demands not only the saving of money but many other things—gasoline and tires, for example. Use of the motor car must be limited to necessary tasks—necessary to the war effort. Many Canadian farmers find it unnecessary to drive to town to do their banking. They just walk to their own mail-box and back.

Have you ever tried banking by mail? It is so easy and convenient. Write for our folder, "How to Bank by Mail".

FEEDING OF DAIRY CALVES

A well-fed, well managed dairy calf has a much better chance to develop into a high-producing dairy cow than one which is poorly fed and cared for. A few suggestions from practices carried on at the Lethbridge Experimental Station may be helpful.

The new-born calf should be left with its mother for a period of twelve to twenty-four hours. This enables the cow to dry the calf, and affords the calf an opportunity to take the colostrum of first milk. This colostrum is beneficial in reducing possibility of infection, and in clearing the digestive tract from fecal matter present at birth.

When the calf is removed from its mother, it should be put in a clean, well disinfected pen by itself for a week or ten days so that other calves cannot suck and injure its navel. Here, as well, it will be more convenient for the person in charge to teach it to drink.

For the first week or so, a calf should receive milk from its mother only, but after this time it may be fed mixed milk from the herd. It is well to feed three times a day for the first three or four days, about 1 and a half to 2 pounds whole milk being given at each meal. After a few days the noon feed may be discontinued and the amount given for each of the other meals increased. The following feedings are recommended:

Age	(Twice Daily)
Days	Lb. pints
1 - 4	3 2 1/2
4 - 10	4 3
10 - 20	5 4
20 - 30	6 5

At three to six weeks of age, depending upon the vigor of the calf, skim milk may gradually replace whole milk at the rate of one pound per day over a period of seven to ten days. Once the calf is feeding entirely on skim milk the allowance may be increased gradually to eight-pounds daily at six weeks.

Never feed cold milk to calves. Before feeding, heat to a temperature approximately that of milk from the cow's udder. This is particularly important until the calf is from eight to ten weeks old. All pails and other utensils, in which calves are fed should be clean at all times.

At approximately two weeks the calf should be given access to roughage and concentrates. For roughage well-cured leafy legume hays are recommended though mixed hay containing at least 50 per cent legume is

SEEDTIME and HARVEST

By Dr. K. W. Neatby
Director, Agricultural Department
North-West Line Elevators Association

Germination Tests

Frost damage to cereal grains has again been serious in some districts. This means loss to the farmer through reduced yields and lower grades. Many farmers will almost certainly find it necessary to buy new seed, especially of oats and barley.

It is never wise to assume that seed will germinate giving a high percentage of vigorous seedlings.

It is always wise to make a germination test, or to have one made. Three courses of action are open to the farmer. They are:

1. Official government test for which a nominal charge is made. Send samples to Plant Products Division (Seed Branch), Winnipeg, Saskatoon or Calgary.
2. Make a home germination test. A printed card, giving full instructions, may be obtained from the Agricultural Department, The North-West Line Elevators Association, Winnipeg.
3. Take a sample of about three ounces to the nearest line elevator associated with this Department. The agent will forward it to us for testing. We test only wheat, oats, barley, rye and flax. Other seeds must be sent to Plant Products Division laboratories.

Last year, we tested over 11,000 samples. Of these, only 3,000 came in before Christmas. As a result, we were taxed beyond our capacity in March, and many farmers had to wait three or four weeks for results. Please help us to avoid congestion in the spring by delivering samples to the local elevator agent early.

This subject is discussed more fully in a printed leaflet. Get one from your nearest line elevator agent.

suitable. To avoid wastage, the hay should be fed sparingly at first but should gradually be increased so that the calf continually receives as much as it will eat.

The grain mixture should be palatable and slightly laxative. It may consist of one of the following:

Up to Two Months	
Whole oats	200 pounds
Wheat bran	100 pounds
Flax	6 pounds

Two to Six Months	
Coarsley ground oats	30 lb.
Coarsley ground barley	30 lb.
Wheat bran	30 lb.
Linseed meal	10 lb.

Feed a handful of the mixture at first and gradually increase the amount until at two months the calf is receiving about one and one-half to two pounds per day. Any grain remaining in the feed bin should be cleaned out before more is given.

NEW SCHEDULE

PRESERVES RATIONING

EFFECTIVE SEPTEMBER 30, 1943

Preserves rationing gives the consumer a number of choices both of products and sizes of containers. Because of the wide range of container sizes and the variation in buying habits across the country it was necessary to put the system into operation and then make adjustments on the basis of experience.

Now that preserves rationing has been in effect for several weeks, it is possible to make some increases in coupon values. The new schedule is announced below and is effective September 30th.

The new doubled ration allowances for molasses, extracted and comb honey will enable consumers in areas where consumption of these products is heavy, to buy more and still leave enough for districts where the total demand is light.

The increased ration allowances for corn, cane and blended table syrups and maple syrup are adjusted to bring coupon values more closely into line with the great variety of container sizes now in use.

ONE "D" COUPON IS GOOD FOR

Not More Than

Jams, Jellies, Marmalades, Maple Butter,	
Apple Butter or Honey Butter	- - - 6 FLUID OZ.
or	
Comb Honey (in Squares)	- - - One Standard Section
or	
Cut Comb Honey	- - - 1 LB. NET
or	
Extracted Honey or Maple Syrup	- - - 12 FLUID OZ. (1 LB. NET)
or	
Maple Sugar	- - - 1/2 LB. NET
or	
Molasses	- - - 20 FLUID OZ. (1 PINT)
or	
Corn Syrup, Cane Syrup, or any Blended	
Table Syrup	- - - 14 FLUID OZ.
or	
Canned Fruit	- - - 10 FLUID OZ.
or	
Sugar	- - - 1/2 LB. NET

Coupons D-4 and D-5

NOW BECOME VALID SEPTEMBER 30th

The validity date of these coupons has been moved forward from the original October 14th to September 30th.

This has been done to accommodate purchasers of some items which at this season of the year are normally bought in large units.

Coupons D-6 and D-7 will become valid on November 11th and the original schedule will be continued from then on, with two coupons becoming valid every four weeks.
